

These are the unedited notes from the call last night (6-29-05); if anyone has further comments please...

Who: JM, Frank Z, Phil J, Aaron from Health Gap, Fran, Leonard M, Adam from Wetlands {others who's names I didn't get}

Fax-in day to Clinton? As soon as possible

Urgent action alert sent out to list: contact representatives; toll-free number from Steelworkers; talking points; ask for opposition and a commitment in public to vote against it.

Fax action;

New information: Action in Senate may be as soon as tonight. Mark-up was today and its on the floor as of today.>>should we move on to Meeks? Almost definitely by Friday [beginning of recess] Public Citizen feels HC will vote against CAFTA. {{did this happen? }}

Modification of Action Alert: may be too late or of no use to contact Hillary. Other states? They will be doing their own thing.

Focus on Meeks: report on labor conditions in CA; AFSC sign-on letter {{these will be sent to list}}

What to do? Demo in His district? How to get constituents; Jessica in AFSC may have contact in his Office or district.

Queens media contacts list to be provided

An action? Same day as planned HC action? Will send contact info on Meeks to list. Demonstration? Probably not given location and time.

Need more planning and investigation

All organizations should look for constituents living in the district so we can make calls; SEIU, Unite Here, other organization contacts should ask for use of phones to make calls to constituents. We will need people to make calls

Outreach at Jamaica train station? To make office calls Probably doesn't yield results commensurate with effort.

Another call? Friday @ 6pm; same number {{The call in number is 1-866-501-6174 and the conference code is 8670000#
