MAY-EARLY JUNE 2014 EVENTS TO STOP TPP & FAST TRACK

What is TPP? By Public Citizen's Global Trade Watch

TPP = Trans-Pacific Partnership. It is the dream of the 1%. With nearly 600 U.S. corporations as officials advisers, this stealthy international agreement is being negotiated behind closed doors. What would TPP mean for the 99%? Millions more American jobs offshored. Backdoor deregulation for financial firms to wreck the economy again. Floods of unsafe food and products. Higher medicine prices. A ban on Buy America policies needed to create green jobs and rebuild our economy. Foreign corporations empowered to attack our environmental and health policies in foreign tribunals. Closed-door talks are on-going between the U.S. and Australia, Brunei, Chile, New Zealand, Peru, Singapore, Malaysia, Vietnam, Mexico, Canada, and Japan; with countries like China potentially joining later. The nearly 600 corporate advisers have access to the draft text of this deal that could change all of our lives. The public, Members of Congress, journalists, and civil society are excluded.

Corporations Attack U.S. Laws, Grab Taxpayer \$\$ in Foreign Tribunals

Foreign corporations would be empowered to attack U.S. health, land use, environmental, and other laws before tribunals of three corporate lawyers operating under World Bank or UN rules to demand taxpayer compensation for policies they think undermine their expected future profits. (Already \$350 million has been paid to corporations under NAFTA's version of this crazy system.)

Bye Bye American Jobs & Buy America

Special investor protections take away the risk of offshoring jobs to low-wage countries and in fact incentivize offshoring by providing special benefits for companies that leave. Plus, TPP would impose limits on how our elected officials can use tax dollars – banning Buy America or Buy Local preferences when government buy goods and services.

Undermining Food Safety

TPP would require us to import food that does not meet U.S. safety standards. It would limit food labeling.

Son of SOPA: Curtailing Internet Freedom

Thought SOPA was bad? Read how TPP would require internet service providers to "police" user-activity and treat individual violators as large-scale for-profit violators. Plus, TPP would stifle innovation.

Financial Deregulation: Banksters' Delight

TPP would rollback reregulation of Wall Street. It would prohibit bans on risky financial services and undermine "too big to fail" regulations.

More Expansive Medicines, Threats to Public Health

Disgustingly, U.S. negotiators at TPP are pushing the agenda of Big Pharma – longer monopoly control on drugs for the big firms and higher prices for us. These proposals would mean millions in developing countries are cut off from life-saving medicines and higher prices for those of us in rich countries.

What is Fast Track? By CTC & PCGTW

"Fast Track" is a Nixon-era trade negotiating and approval process that strips power to influence the terms of trade agreements away from the public and our elected representatives, while maintaining and amplifying the influence of large corporate interests. Fast Track is contrary to democratic principles like transparency, public participation and accountability in every way. As a candidate, President Obama said he would replace this anti-democratic process. But now he is asking Congress to grant him Fast Track authority to overcome growing public and congressional opposition to TPP.

Join these actions & events vs. TPP and Fast Track!

(New events are added to our schedule all the time – for the most updated list of events, visit <http://tradejustice.net/events> or join our email list at <http://tradejustice.net/elists/>)

Every Day: Save the World – Stop Fast Track!

Visit <http://savetheworldstopfasttrack.com> EVERY DAY to find two new targets who need to hear from us on Fast Track & TPP via Facebook and Twitter – one media target and one legislative target. Ask the media to cover Fast Track and legislators to oppose it.

Every Monday: Facebook Blitz: Urge Daily Show & Colbert to address TPP.

Wed, May 7th, 1:30PM: Rally for Fair Trade in Washington, DC

We've been shut out of the future of the global economy. When US negotiators decide what matters during trade agreements, they consult with big corporations, not the US public. These corporations are using these secret negotiations to make an end run around Congress so that they can ship even more jobs overseas, devastate the environment, drive up health care costs and repeal critical consumer protections on Wall Street. They've shut all of us out of the negotiating room, but that doesn't mean we won't be heard. Join the Communication Workers of America and thousands of activists as we rally for fair trade on the grounds of the Capitol. We'll show Congress that the entire progressive movement is united in the fight for a 21st century economy that works for everyone.

Location: Upper Senate Park (Constitution Ave between New Jersey Ave NW and Delaware Ave NE, Washington DC)
