Prepare Letters vs. Fast Track for Mass Delivery

Activists across the country have collected millions of petitions against Fast Track. With Sen. Wyden threatening to introduce a new Fast Track bill and President Obama traveling to Asia to seal the deal on TPP, activists are aggregating all the names we've collected for a mass delivery. Help add the letters we've collected in NY to the millions collected nationwide. To prepare our letters for delivery, we need to look up the names of the elected officials of each letter signer, add them them to the letter, and then sort them for delivery to the appropriate member of Congress. This is an easy task involving entering the signers' addresses at <http://tradejustice.net/leg>, but must be done one by one with each letter. Please bring a laptop, tablet, or smartphone, to look up the addresses.
